## WASHING [TUB]

The numbers in the tab indicate the maximum washing temperatures which must not be exceeded. The bar below the tab requires a more mechanical/gentle treatment (e.g. programme for delicate fabrics) or designates washing programmes which are suitable for easy-care and delicate garments. Textiles made of cotton or mixed fibres should be pulled into shape when call-wet. We recommend that textiles with prints or embroideries should only be washed on the reverse at a maximum of 40 degrees in order not to impair the quality of the print or embroidery.

## DRY CLEANING [CLEANING DRUM]

The letters are intended for the textile cleaner. They indicate the possible solvents. The bar below the circle requires cleaning under limited mechanical strain, with a limited amount of moisture and at a medium temperature. Textiles with prints or embroideries should not be dry cleaned.

## IRONING [IRON]

The dots indicate the temperature scale of the iron. Textiles with prints or embroideries should only be ironed on the reverse.

## TUMBLE DRYING [TUMBLE-DRYER]

The dots indicate the drying-grades of the tumble-dryer. Textiles with transfer prints must not be tumble-dried.

## BLEACHING [TRIANGLE]

This symbol shows the textile cleaner whether the garment may be bleached or not.
